INTRODUCTION

THIS book is intended to be used as a companion to a text-book of geography. It is strictly a Canadian Atlas, every map having been specially drawn for illustrating or elucidating those geographical facts or ideas which should be assimilated by pupils in Canadian schools.

In the maps illustrating the geography of Canada colour is largely used to show differences of altitude, while other geographical features are emphasised which are of scientific or commercial importance, so that the book is not a mere record of topography. The utmost care has been taken to avoid overcrowding of names and so to make each map as clear and readable as possible.

This Atlas was prepared to form a working companion to the author's *Canadian School Geography*. It represents an endeavour to meet the practical need for an atlas quite separate from the geographical text-book, and so to render the concurrent study of letterpress and map less irksome and inconvenient.

GEORGE A. CORNISH.

UNIVERSITY OF TORONTO.

FOR the Third Edition the maps have been thoroughly revised, and in response to numerous requests from teachers the number of names printed has been extended considerably; seven maps have been added dealing with classical history and literature. An entirely new index has been made, incorporating these changes and additions.

CONTENTS

1. HEIGHT OF LAND AND DEPTH OF SEA
2. POLITICAL DIVISIONS OF THE WORLD
3. WORLD RAINFALL AND WINDS—JANUARY
4. " " " " JULY
5. WORLD TEMPERATURE—JANUARY
6. " " " " JULY
7. WORLD SEASONAL DISTRIBUTION OF RAIN-
FALL AND OCEAN CURRENTS
8. NORTH AMERICA—PHYSICAL
9. " " " " VEGETATION

CLASSICAL MAPS

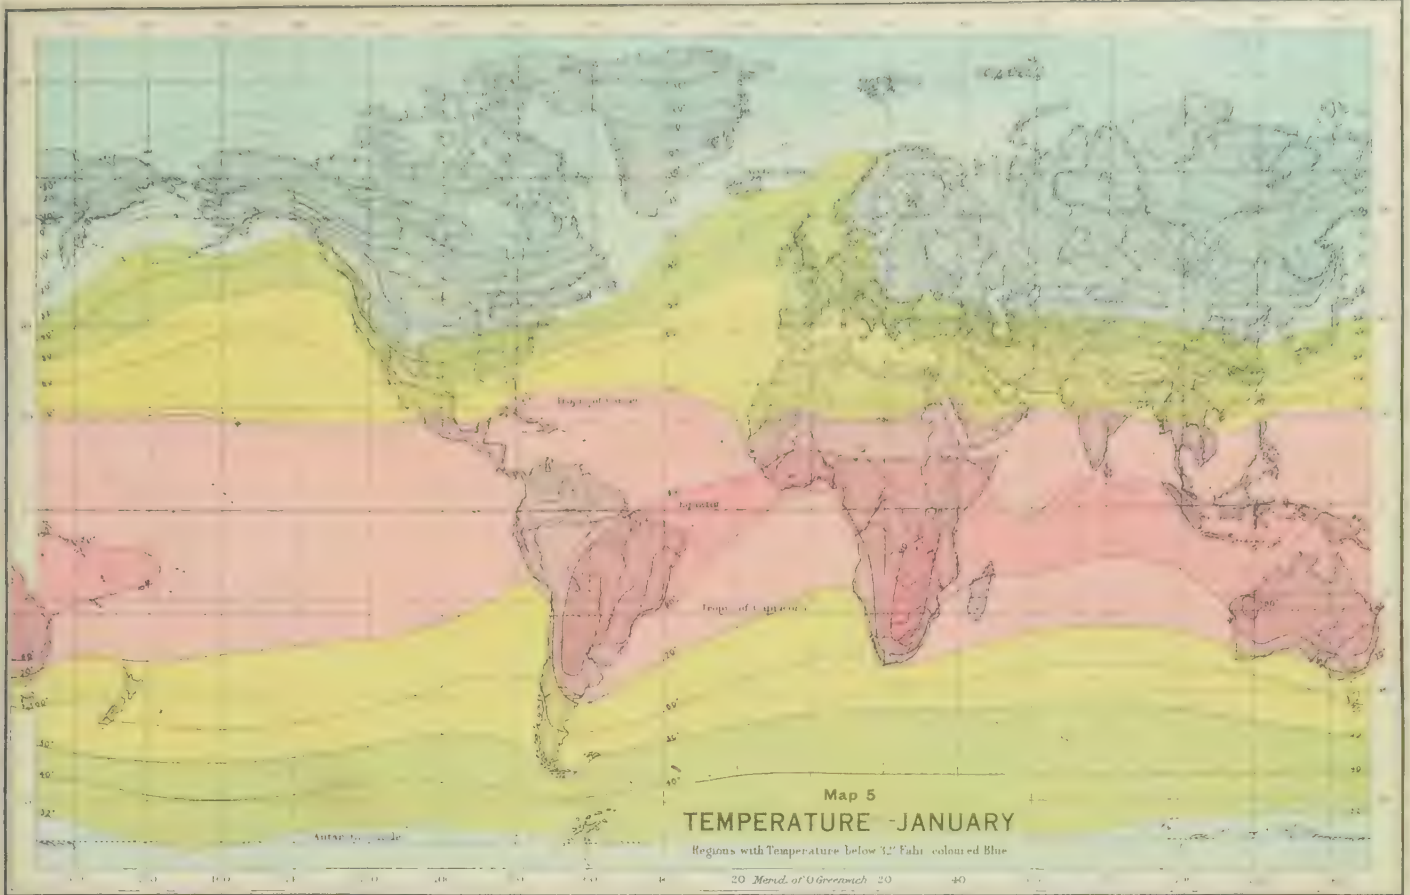

66. PERSIAN EMPIRE AT ITS GREATEST EXTENT,
525 B.C.
 67. GRECIAN EMPIRE—TIME OF ALEXANDER THE
GREAT, 325 B.C.
 68. ROMAN EMPIRE AT ITS GREATEST EXTENT,
THIRD CENTURY A.D.
 69. HISPANIA
 70. BRITANNIA AND GALLIA
 71. GRAECIA
 72. ITALIA
- GENERAL INDEX
- INDEX TO CLASSICAL MAPS

Note to Ocean Currents

Warm Currents

Cold Currents

The direction of the Currents is shown by the arrows.
The feathers of the arrows indicate by the number of strokes the mean speed of the water drift in an hour.
The thick strokes above indicate the number of nautical miles the thin strokes below indicate the number of quarters of a mile thus: ————— 1 mile ————— 2 miles ————— 3 miles ————— 1/4 ————— 1/2 ————— 3/4 —————

Note to Monsoon Drifts

In the Indian Ocean, the China Sea, and the West Coast of Mexico and Central America, the Currents change with the Monsoons.
The simple arrows ————— show the SW and SE Monsoon Drift during the Northern Summer. The arrows marked thus ————— show the NW and NE Monsoon Drift during the Northern Winter.

Limit of Floating Ice

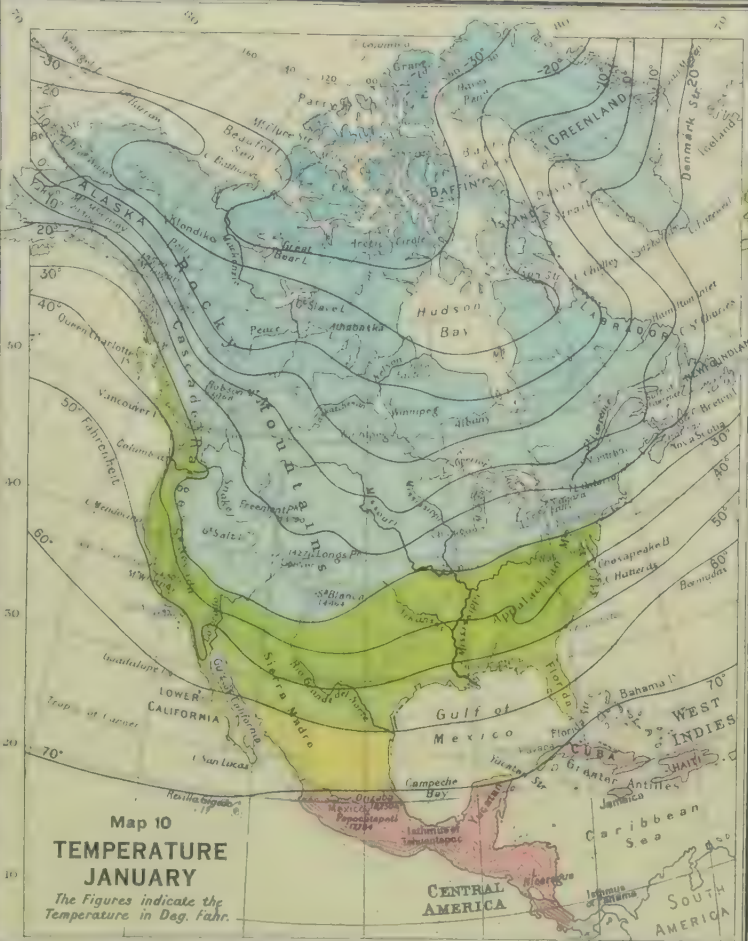

Limit of Pack Ice

Sea Weed

King George V Land

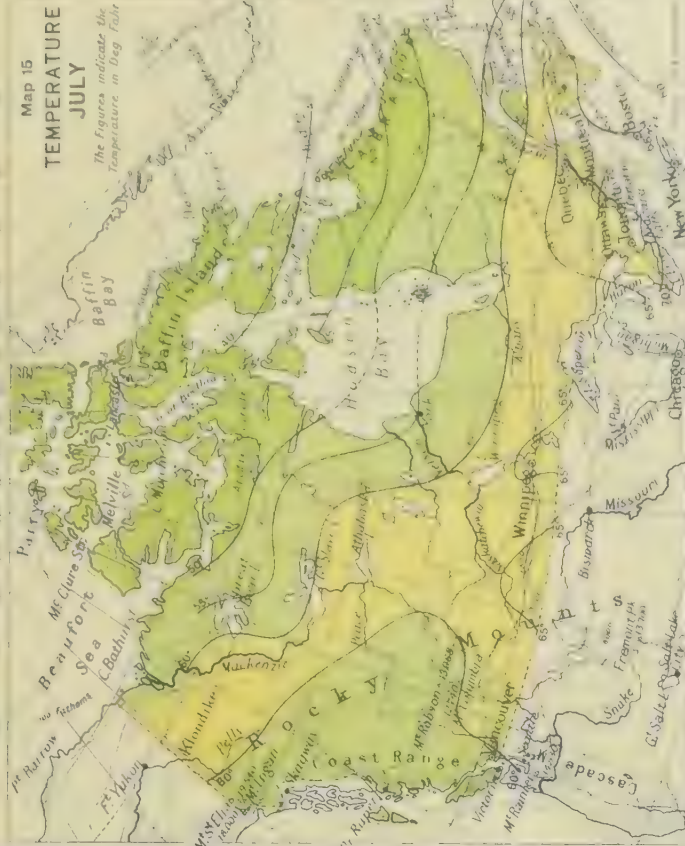

Map 14
TEMPERATURE
JANUARY

The figures indicate the temperature in Deg. Fahr.

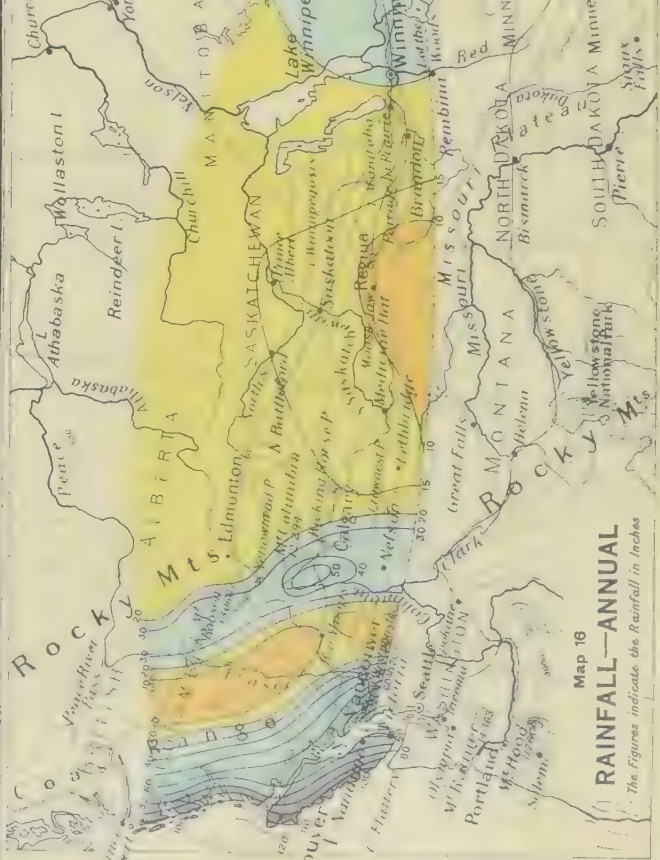

Map 15
TEMPERATURE
JULY

The figures indicate the temperature in Deg. Fahr.

Map 16
RAINFALL—ANNUAL

The figures indicate the rainfall in inches
